

English

Astro Girl - offers a vision for all children who dream of pursuing careers in STEM and space travel. The children will be writing amazing fact files about being an astronaut!

Stella and The Seagull - Provides opportunities for children to learn about the actions they can take to protect and help nature. Children connect with the characters and events in the story by discussing emotions and by acting and writing in role. The children will write their own narrative based on the key events in the book

Mathematics

- Mass and Volume
- Multiplication and Division
- Fractions
- Money
- Time
- Place Value within 100
- Position and Direction

French

Games - The children will play games in French listening to and using the vocabulary learned.

Physical Education

Send and Return + Athletics

The children will continue with developing their throwing and hitting skills, and preparing for Sports Day!

Science

Seasons We will explore the season of Spring and how it changes our environment and weather.

Everyday materials

Developing further our knowledge of objects and materials, the children will identify the properties of specific materials and begin to explain and justify why they are suitable for particular objects.

Year 1 Summer 2

Computing

My Friend Robot

The children will design their own robots and learn about programming/giving instructions.

Music

The children will continue with the 'Fairytale' unit learning timbre, and rhythmic patterns.

Design and Technology

The children will learn about health and safety when handling fruit and vegetables. They will design, make and evaluate a fruit/veg smoothie.

History

Toys - The children will learn how toys have changed by looking at toys from present and past. They will describe how toys have changed over time.

Religious Education and World Views

In Religious Education and World Views this half term, we will be learning about 'Special Places' identifying where our special places are for ourselves, and for those with religious beliefs.

PSHE

Transition

The children will be well prepared for the transitions ahead of September by getting to know their new class teacher and familiarising with their new classrooms.

Reading and Phonics

Children will continue to have daily phonics lessons looking closely at sounds and how to read and write these in words and apply in sentence construction.
